

# PETROL FREEDOM

1.

## One-Piece Front Axle:

To keep your ride smooth and Trouble-free, we designed a one-piece axle which adds stability and keeps the wheels constantly aligned.

- \* Exclusive design
- \* Smoother ride
- \* Constantly aligned wheels
- \* Eliminates excessive wear
- \* Eliminates constant adjustment

2.

## Rack & Pinion Steering:

Our sturdy, responsive steering is like no other in the industry. The self-adjusting design results in reduced maintenance and longer life.

- \* Rack & pinion design
- \* Self-adjusting
- \* Responsive
- \* Low maintenance

3.

## Freedom Powertrain:

E-Z-GO's continuously variable Transmission (CVT) provides Smooth acceleration. The unique ground speed governor senses vehicle speed and our Unique Neutral Lock-out allows easy towing and convenient maintenance.

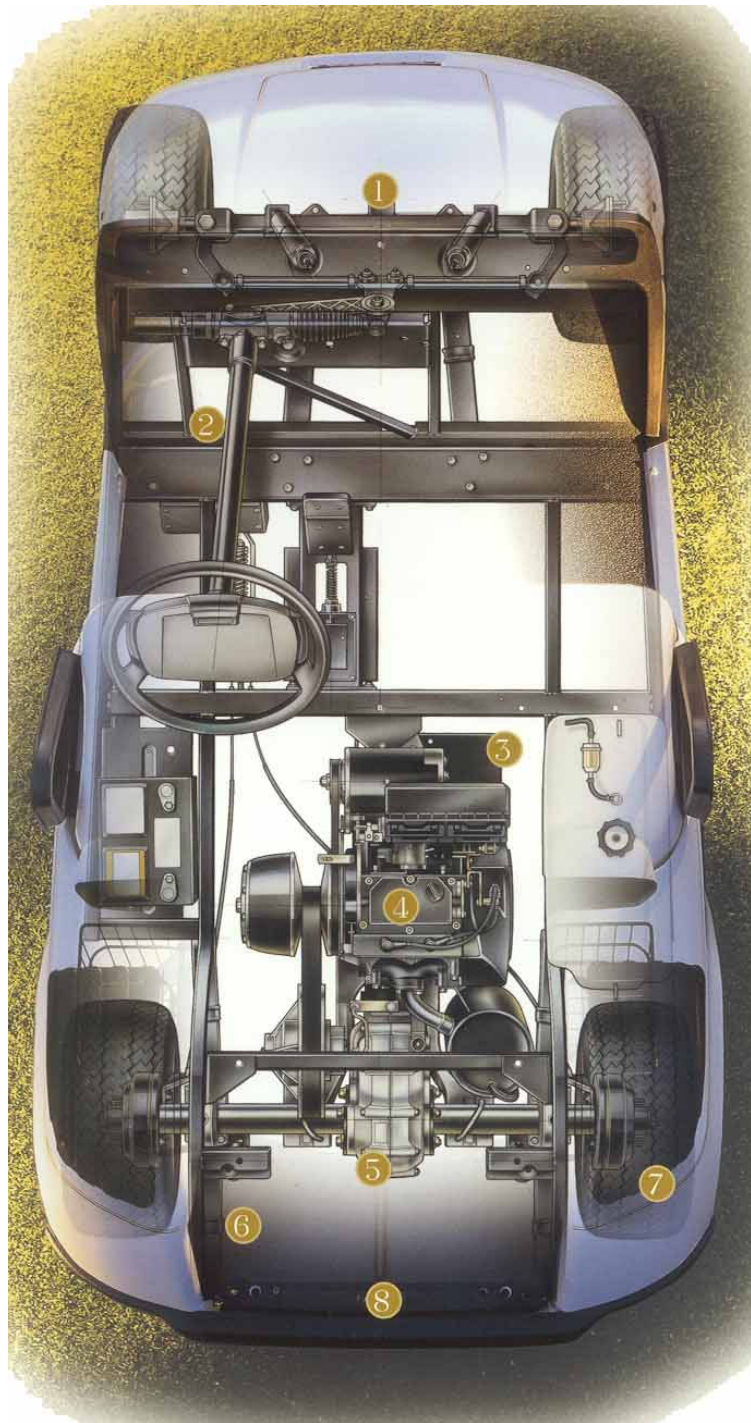

- \* CVT
- \* Ground speed governor
- \* Neutral Lock-out

4.

## QuietDrive Twin Cylinder Overhead Cam Engine:

The brawn behind the Freedom is our 4 cycle engine. It delivers the power and torque required on many courses with the efficiency you look for from #1.

- \* Exclusive design
- \* 9.0 rated horsepower
- \* Counter-rotating balance shaft
- \* Fuel efficient

5.

## Die-Cast Engine Frame:

Our engine frame is a unique die-casting that gives the most powerful engine in the industry the greatest amount of support.

- \* Unique design
- \* Additional support

6.

## Suspension:

The Freedom offers the smoothest ride in the industry. Any bumps that aren't absorbed by the tires are easily handled by the rugged suspension.

- \* Chassis
- \* Multiple leaf springs
- \* Shock absorbers

7.

## Brakes:

With dual rear wheel mechanical drum brakes. The Freedom gives you all the stopping power you need for hilly courses or unexpected stops.

- \* Exclusive design
- \* Automatic self-adjusting
- \* Positive latch system

8.

## Tubular Steel Chassis:

Structural integrity is engineered into the Freedom. The chassis' Tubular design means greater dimensional strength with less Weight.

- \* Dimensional strength
- \* Minimal weight
- \* Powder coat paint
